# THRESHING OVER COFFEE QUESTION

As New Tariff Bill Now Stands, Beverage Still Remains on the Free List.

TREASURY OFFICIALS FEAR PROPOSED DUTY

Claim Made That Big Shipments Before Law Went Into Effect Would Follow.

WASHINGTON, March 13 .- As the tariff bill stands tonight, coffee remains on the free list. When the Republican members of the ways and means committee ceased their labors tonight until Monday morning, the provisions relating to special taxation had not been decided upon. The Payne bill will not be ready for introduction on Monday, according to a member of

The Coffee Question.

The Coffee Question.

The tressury officials view with distavor the proposition to levy an import on coffee. It is pointed out that several million bags of high-grade Brazilian coffee are now held in this country and in some of the European centers as security for loans made to one of the Brazilian states, and that should a duty be imposed the coffee stored in Europe could be shipped into the United States before the new tariff bill would become operative. This vast quantity of coffee, estimated to exceed ten million bags, is said to equal the entire exportation of Brazilian coffee into the United States for a whole year. Thus, it is stated instead of the tax being a revenue producer, the income for the first year is likely to be insignificant. In the brief which they submitted to the ways and means committee, the

In the brief which they submitted to the ways and means committee, the National Coffee and Tea association declared that the proposed tax on coffee or tea would fail to produce any material revenue to the government for nearly two years, and would increase the cost of these beverages to every family from \$4.50 to \$25 per year.

They stated that the present visible supply of coffee in the world amounts to about sixteen million bags, of which

to about sixteen million bags, of which four million bags are stored here or are affoat in this country.

Figures of Magnitude.

According to the figures which they submitted, a duty of 4 cents a pound on coffee would, they claim, mean an immediate profit of at least \$5.20 per bag upon every bag in the United states, or a profit of nearly \$21,000,000 to owners and holders of this coffee.

As an average of one billion pounds of coffee are imported annually, the fariff framers figured that a duty of 4 cents per peund would bring a revenue to the government of nearly \$38, 0000,000 annually. The importations that would be free of duty from Porto Rice and Hawaii, which now amount to Rice and Hawaii, which now amount to forty million pounds, probably would increase with the protection afforded by this duty. The Philippines, which by this duty. The Philippines, which now practically export no coffee, it is contended, would send considerable coffee to this country if the suggested tax were not placed on their product.

This statement of Mexico's attitude toward the crisis in Salvador and Nicaragua was made to the correspondent of the Associated Press by Assistant Secretary of State Gambea, who is acting minister of foreign affairs during the illness of Secretary Mirascal. Although repeated demands have been made by the Mexican state department upon the diplomatic representatives at Mangua, Nicaragua and at San Salvador, Salvador, for a statement of the present state of relations between Nicaragua and Salvador, no news was received today. The only means of communication between Central America and the outside world is over a telegraph line running north through Guatemala to Mexico, and this seems to have been interrupted. It is believed here that the government of Nicaragua has, by reason of its control over the line, purposely brought about the interruptions.

FORT WORTH. Texas, March 13.—
Fred Morris, a baseball player, tonight shot and killed Otto Meyer, a vaudeville singer, in a room in a local hotel, after having secured a written confession that his relations with Mrs. Morris were improper. Morris declared he forced Meyer to write and sign the confession and then told him that he intended to kill him.

'Meyer extended his arms,' said Morris, 'and asked me to shoot him through the heart so all would be over at once. I did so at once and would follow him beyond the grave, except that I have a little boy who I think needs me to look after him.' Both men are from Bonton, Texas

It was said that there was no especial significance in value of the control It was said that there was no especial significance in relation to the suspicion that there is a further shortage in Christiansen's accounts in the state board of examiners' action, but that the idea was merely to help Mr. Jewkes to arrive at a quick accounting of the former state treasurer's books.

not be surprised if the amount of the former state treasurer's defaleation reached \$100,000. He expressed himself as believing that it would be found a little later on that the \$70,000 did not cover the amount, and that he stood ready to put up whatever more money was necessary to cover the shortage.

It was pointed out that a sufficient reason for this belief lay in the fact that Christiansen had not told the truth when first questioned about his embezzlement. It is said that he was first asked if the \$60,000 was all that he had embezzled, and he is alleged to have replied that it was. Later on he was asked if he had not also embezzled \$10,628,94, and he replied that that was \$10,628.94, and he replied that that was a part of the total amount. He was then asked if the two amounts together covered the full amount he was short in his accounts, and it is said that he replied that it did. It is further claimed that if he made an untruthful statement at the beginning of the case it is wholly lausible that some other things may be

He asked him a number of questions, but, according to Mr. Mattson, the man appeared to be in a sort of stuper and merely nedded his head one way or anmerely nodded his head one way or another and did not admit a thing to him. Speaking of the matter Saturday, Mr. Matteon said: "I called upon Mr. Christiansen among the very first to see him, and he appeared to be in a dazed condition. I asked him several questions, but he did not reply in an audible manner to any of them, merely nodding his head. He admitted nothing to me, and I gained but little satisfaction from my first talk with him.

I have today made a careful examination of my books and those in the county clerk's office, where inheritance taxes are recorded for Salt Lake county, and find them to tally presided. Lake county, and find them to tally precisely. It was in this department that Mr. Christiansen had his opportunity to be crocked, if he had any inclination that way. These moneys are paid to the state treasurer direct and he had every opportunity to convert this money to his own use if he so desired. The very fact that he did not, beyond the amount noted, leads me to the belief that we have reached rock bottom, and that nothing more will be discovered.

A prominent county official stated Saturday that he would not be sur-prised if the shortage was found to be greater than has been stated. To him, he said, it looked exceptionally odd that the \$60,000 just exactly squared the account, but beyond this he refused to talk. It is said that there is reason to believe that Mr. Christianson may have taken some more which does not an taken some money which does not appear as yet from the hasty examination of the books, but this will become known within a short time.

### IS SMOOT AT BOTTOM OF PLOT TO **DISMANTLE B. Y. COLLEGE AT LOGAN?**

LOGAN, March 13 .- We are having lively time up here in Cache. Visitors from Zion, men of the upper priesthood, frequently come to see us of late. This shows our importance in the esti-

This shows our importance in the esti-mation of our holy rulers.

The last great man to honor us by his august presence was Apostle Heber Jny Grant, who was here this week. Apostle Heber did not journey all the way hither to instruct us in the beau-ties of prohibition, or, at any rate, he does not manifest as much hely fire against liquor as has lately been his

Still, Apostle Heber was not less fiery on the theme of his recent visit than has been his habit on prohibition. He came to inform the saints of Cache what is the present will of the Lord as to our college—the Brigham Young. This institution, as a college, is doomed if the Apostle Heber is to be believed, and, of course, we all believe him, because he speaks with authority. Apostle Heber said that it is the decree of the board and our absent seer that the Brigham Young college shall be dismantled and he reduced to the capacity of a high school, and from this holy behest there is to be no appeal.

When it was suggested that an action so drastic is not agreeable to the saints of Cache, Brother Heber felt the angry passions stirring in his hely Still, Apostle Heber was not less fiery

saints of Cacho, Brother Heber felt the angry passions stirring in his holy breast, and, becoming very carnest and somewhat red in the face, with eyes flashing and cars working, he gave us clearly to understand that we must not question the ways of the Lord. But beyond this, he said in plain word, and with emphasis, that any one here who does not like this action, and who raises his voice or hand in protest, will raises his voice or hand in protest, will be considered out of harmony and dis-loyal to the holy priesthood.

This was a timely notice and served on us with becoming authority, though it does not sit well on us. In fact, we feel to rebel, revolt and kick over the milch pail. It may be all right, wise, and even inspired, but we do not like it. It gravels us. Our teeth are on edge. It makes us feel mean. It stirs the wild beast in our hearts. We hate that sort of thing. It seems unreasonable, high-handed, arbitrary, tyrannous. We have been taught in recent years that we are free, at liberty to think, speak and act as we please, without extraneous interference—the freest people trancous interference—the freest people on the earth!

But now comes Brother Heber, and in all the dignity of a modern apostle, lays down the law to us, and threatens eternal damnation on us if we so much as question the wisdom of an action which robs us of a cherished institu tion. We may not even allow our-selves to feel that this action may pos-

dose, call it sweet, and, as it were,
smack our lips for more. We will be
damned if we don't, and we feel damned
if we do; so there you are!

But, despite the hely fulminations of
Apostle Heber, there is unrest in this
nock of the woods. We not only think,
but talk—and some of us swear. We
know why this unkind action is taken.
Ambition is at work, and the devil refuses to pay the fiddler, and therefore
we are asked to dig up. The fact is,

Indeed, we are assured that the Honorable Ed Loose has generously pledged himself to Apostle Smoot for a large sum of money, variously estimated from one hundred thousand dollars to half a million. With such a friend behind him (who is alleged to be possessed of millions of loose change), it is said Smoot can build the greatest religious university in the west, and will do so if allowed to steal this college from Cache stake.

> Now, that all sounds very well, and Now, that all sounds very well, and doubtless it appeals powerfully to our seer, who knows a good thing when he sees it, but to us who are to sustain the loss, it looks like robbing Peter to gratify Paul, and we object, and therefore frankly tell the Gentiles, through the medium of The Tribune, this latest of Apostle Smoot's escapades.

"Damn that ball haid of Smoot, it's no good nohow. He is no sort of a apostle, no how; he's only a wire-working politician, and he is lowering Bullen and Howell to his own class, and they can't see hit."

Another one, but a business man, albeit a faithful saint, and a garulous tithe payer, remarked that he has a plan that will bring our seer to his senses on this subject. Said he: "The good people of Cache pay into the tithing fund a sum aggregating not less than three hundred thousand dollars a year. If this money were diverted, to the last dollar, from the tithing house, and given to the Brigham Young college for the next ten years, the institution would be on its feet, with plenty of room and appliances for its work, and its necessary expenses would be met at the same time. Now, I suggest to the people of Cache that they pay their tithes in future, not to President Smith, but to the B. Y. college. They will then know what becomes of it, and reap the benefit of their sucriit, and reap the benefit of their sacri-

it, and reap the benefit of their sacrifice."

This seems drastic. As saints we wince under the very suggestion, but doubtless there is reason and force in it. At any rate, it is becoming popular, if one may judge from discussion on the subject, but still we do not believe anything will come of it.

Our people, under excitement, are given to hot air. We talk and bluster, and blow about what we will do, if such or the other thing is not done, but once let one of our leading authorities, an apostle or the seer but bat an eye, or crook a finger, and the jig is up—we run to cover, and swear that we were always obedient and ever observant of our duty, having never so much as thought a contrary thought, much less planned rebellion.

our work well, it is essential that we do it as quickly as is consistent with thoroughness. The industries of over eighty million people await our metions. The newspapers tell us as one of the symptoms of industrial prostration that 300,000 freight cars lie idle on the sidings. 'The power of the people of the United States, through their representatives, to fix their own revenues and control their own expenditures is one of the sublimest attributes of our liberty, consecrated by the suffering and oughness. The industries of over eighty

erty, consecrated by the suffering and the lives of generations of patriots. We must exercise that power with industry and diligence, that the expectations of the people may be realized without undue delay.

### Stands by the Rules,

'The wisdom of those who have pre-ceded us in this house has left us a sys-tem of rules the most efficient that ever guided a legislative body as large as guided a legislative body as large as the house of representatives. Every step in making these rules efficient was resisted bitterly and the men who stood up for the rules were misrepresented by every interest affected by their action and criticised by a large army of innocent vietims of misrepresentation. But misrepresentation dies with the day. Now those men so much criticized then are commended on every hand, while a new brood of misrepresentations arouses new criticisms against those who today continue the work of the past. These things will also pass away, and when present misunderstandings have died away we also shall have the commendation of the future, if only we remain true to ourselves and to our trust." with a declaration that his candidate knew naught of expediency, Mr. Rodenburg said that his fidelity to principle was his religion, and loyalty to honest conviction was the cardinal tenet of his creed. His courage was described trust. trust.

### MURRAY MAN FIGURES IN CUSTOM-HOUSE CASE

Special to The Tribune.

BOSTON. Mass. March 13.—United States Commissioner Hayes discharged from custody this morning John A. Giorgia, an employee of Pitt & Scott. custom house brokers, to whom a hearing was given some days ago on a charge of using the mails in a scheme to detraud. It was alleged that Giorgia overcharged. Fred Jones of Murray, Utah, for customs duties and forwarding charges on an atlas which had been sent from London, by drawing \$5 from the firm, whereas the duties were only \$1.75. Mr. Harrey of the firm, however, testified that Giorgia had several cases of the kind on his mind at the time and said that Giorgia's statement, that he had forgotten to return the balance, was satisfactory to him. Commissioner Hayes, therefore, discharged the defendant.
